

Coronavirus Update from Malta House of Care

To Our Patients:

The last couple of weeks have been extraordinary for all of us. This new normal we are living through can be unsettling, but there is one thing you can count on – that we will get through this together.

We are committed to your health and the health of your family. At this time, for your safety and ours, it is very important that you accurately tell us **all your symptoms** when you arrive so we can accurately assess your needs. Your visit will be handled according to your clinical needs and risk of coronavirus exposure. Our priority is to protect you and your family's health and safety, but we need your help to do so.

We understand that you are worried, and peace of mind can be a challenge at this time. Let us help you and be a reassuring voice.

Your Malta Team
